

Monthly Research Update

June 2023 Review

- **National Consumer Sentiment**

- Continued excitement around travel has driven strong summer performance for many American hotels, short term rentals, and destinations in 2023.
- Concerns around recession, personal finances, and elevated travel prices still exist, but have begun to wane in recent weeks. A significant number of travelers remain apprehensive about wildfires in Western states this summer.
- Shorter booking windows for the summer travel season are being seen industry wide and will likely persist into the fall.

- **National Travel Trends**

- June short term rental performance largely mirrored the same trends seen in May, with decreasing Occupancy rates compared to previous years, the decline of pricing power and RevPAR, and stay lengths consistent with last year. One notable difference, however, is that net reservations were higher than in 2022, 2021, and 2019.
- The inflation rate in the United States slowed yet again in June, which marked a full year of YoY inflation rate decreases. Americans are still paying an average of approximately 3% more for goods and services than in May of last year.
- Gasoline costs increased 1.0% from May to June 2023, following a 5.6% decrease from April to May 2023. Airfare decreased by 8.1% in June after falling 3% from April to May 2023.

Kalispell Trends

- Glacier Park International Airport traffic remains elevated in 2023, with total YTD passenger counts through June 2023 up 3.8% compared to the same time period last year.
 - June 2023 passenger counts were flat compared to June 2022.
- Although Kalispell hotels were down 9.2% YoY in June 2023 in Occupancy, both ADR (+9.8%) and RevPAR (+0.3%) were elevated for the month.
 - Total hotel Revenue was down 4.5% for the month of June.
- Short term rental Total Available Listings grew by 66.9% YoY in June, increasing from 133 Available Listings in June of 2022 to 222 Available Listings in June of 2023.
 - This large increase in supply caused Occupancy to decrease 9.8% from 66% in June of 2022 to 59% in June of 2023, but an increase in total Demand helped Revenue grow by 40.6% YoY.
- Visitor Visa card spend in Kalispell through Q1 2023 remains relatively healthy and is flat compared to Q1 2022.
 - *Note: Visa Destination Insights reports data quarterly and Discover Kalispell has not yet received Q2 2023 data.*

STR Hotel Data

STR Hotel Data - Definitions

- **Average Daily Rate (ADR)** – A measure of the average rate paid for rooms sold, calculated by dividing room revenue by rooms sold.
 - $\text{ADR} = \text{Room Revenue} / \text{Rooms Sold}$
- **Demand** – The number of rooms sold in a specified time period (excludes complementary rooms).
- **Occupancy** – Percentage of available rooms sold during a specific time period. Occupancy is calculated by dividing the number of rooms sold by rooms available.
 - $\text{Occupancy} = \text{Rooms Sold} / \text{Rooms Available}$
- **Revenue** – Total room revenue generated from the guestroom rentals or sales.
- **Revenue Per Available Room (RevPAR)** – Total room revenue divided by the total number of available rooms.
 - $\text{RevPAR} = \text{Room Revenue} / \text{Rooms Available}$
